

MAT 350 Project One Table

Stephen Israel

Network Link	Recommended Capacity (Mbps)	Solution	Recommendation	Explanation
x ₁	60	50	No Change	The calculated data rate on link x ₁ is 50 Mbps, which is below the recommended capacity of 60 Mbps.
x ₂	50	50	No Change	Link x ₂ operates at its recommended capacity but does not exceed it.
x ₃	100	50	No Change	Link x ₃ carries significantly less traffic than its recommended capacity.
x ₄	100	100	Upgrade Link	Link x ₄ is operating at full capacity and should be upgraded to prevent congestion.
x ₅	50	0	Remove Link	Link x ₅ carries no traffic and can be removed without impacting the network.
